- Periyar University Salem
  BSC Physics
  Completed in Nov 2005

About Me

I am a flexible and enthusiastic mern stack developer with excellent time management skills. I am a good problem solver and always enthusiastic to learn new things. Handles any part of the process with ease. Collaborative team player with a willingness to learn and grow with the organization.

Personal Projects

Pizza App Delivery

Reactjs, NodeJs, MongoDb, JWT, CSS

Key responsibilities:

Developed a mern-stack pizza delivery application using React.js for the frontend, Node.js for the backend, and MongoDB for database storage. Implemented user authentication and authorization using JWT for secure access to features. Users can order pizzas, track deliveries, and manage their accounts.

Version Control System

Reactjs, NodeJs, MongoDb, JWT, CSS

Key responsibilities:

A React.js and Node.js project utilizing MongoDB for data storage, incorporating a version control system for efficient code management. Authentication is handled using JWT for secure user access and data interactions.
